## FEATURES

**Digital Image Stabilization:** Gives you sharp images no matter the condition. Whether it's low light, zooming or just shaky hands, your photos come out sharp and clear.

**Movie recording:** Record movies in the palm of your hand.

**Smart Touch 3.0:** Touch, drag, click: the intuitive Smart Touch 3.0 is a quick and easy way to control the many advanced functions in Samsung's new line of compact cameras. Like a smartphone touch screen, just a few touches on the large, clear LCD screen lets you control app-style icons, flip through photos and more.

**Smart Auto 2.0:** Using your selected shoot mode, Smart Auto takes perfect shots automatically, based on lighting and other conditions.

**Smart Filter 2.0:** Change the mood of stills and movies with special-effects filters, such as Half Tone Dot and Old Movie.

**Face Detection:** Your camera does the work for you by detecting and adjusting the lighting on up to nine different faces at one time.

**Beauty Shot/Self Portrait:** Position yourself in the frame, with dark circles and blemishes automatically removed.

**Multi Slide Show function:** Lets you arrange pictures into a slide show and add music.

**Smart Crop:** After shooting an item – such as a building or poster – at an angle, use the Smart Crop feature to alter the image to appear as if it were shot straight on. Simply select four crop points on the image, and it automatically reappears, recropped full frame, from the desired angle.

**Portrait Highlight:** Samsung's smart Portrait Highlight technology makes everyone photograph looking their absolute best – automatically, every time.

**Magic Frame Shot:** Now you can create artistic, framed photo postcards and posters right in the camera. First select one of the Magic Frame Shot templates, then take the shot. Both images will automatically be combined in a perfectly framed shot, ready to share with friends and family.

**Intelli-Studio:** Intelli-studio- Built-in advanced editing software gives you the freedom to play, edit and share files on any PC. Intelli-Studio even starts up automatically – simply plug into any PC via the USB input.
